SIR:

In response to the Office Action dated September 3, 2003, Applicant provisionally elects, with traverse, Group I, Claims 1-10 and 12 for further examination on the merits in the present application.

Applicant respectfully traverses the Restriction Requirement because the PTO has not carried forward its burden of proof to establish that searching and examining the noted sets of claims would be an undue burden.

In particular, MPEP § 803 states:

If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to distinct or independent inventions.

The claims of the present invention would appear to be part of an overlapping search area.<sup>1</sup>

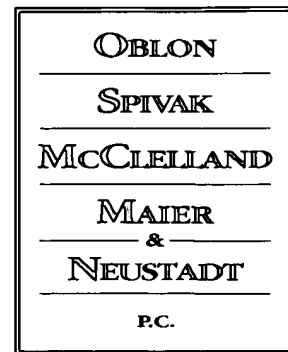

---

<sup>1</sup> To do justice to either identified groups of claims, it is respectfully submitted that it would be necessary to search in all classes and subclasses identified in item 1 at page 2 of the outstanding Official Action.
